

# FREE SOUTH AFRICA

We are raising our voices in Solidarity with our suffering  
Brothers and Sisters in **South Africa** and with our suffering  
Brothers and Sisters in **New Jersey!**

**We demand an end to U.S. policies which favor the exportation of American jobs to countries which exploit their own labor force-like South Africa.**

Five of every six South Africans are Black. Yet:

- They are non-citizens: They can not live or work where they choose and they have no right to vote.
- They risk jail if they strike for better wages or justice on the job.
- They are confined to live on only 13 percent of the poorest land in their own country.
- Those who dare to protest the oppression are jailed -- often without trial (Nelson Mandela for more than 20 years).
- More than 700 men, women, and children have been killed in the last year.

In New Jersey:

...We have scandalous unemployment—Jobs are still leaving our area.-- Minority youth unemployment exceeds 50 percent.

...We lack decent, affordable housing—families are without adequate housing—There are homeless in our streets.

...Our communities have experienced grievous cutbacks in funding for educational opportunities, job training and retraining programs, and housing assistance.

...Many do not have enough to live on (social security, welfare, food stamps).
